

THE EARLY SETTLEMENT OF EMILY TOWNSHIP, ONTARIO.

by

Michael Charles Stephenson

A dissertation submitted to Trent University,
Department of Geography,
in partial fulfilment of the requirements of the degree
of Bachelor of Science with Honours.

Peterborough, Ontario

April, 1995

For my father Charles,
grandfather William,
and great-grandfather
Thomas Stephenson,
Emily Township persisters.

'... when we say the word "Heimat", then a wave passes over our hearts; in all our loneliness we are not completely alone ... Heimat is Mother Earth. Heimat is landscape we have experienced ... our Heimat is the land which has become fruitful through the sweat of our ancestors ...' (Yi-Fu Tuan, 1977).

ACKNOWLEDGEMENTS

The author would first like to thank his wife, Mary Lynne, and my two daughters, Emily and Caitlin, for their support and tolerance of the unremitting unsocial behaviour caused by the hours and days that this thesis consumed. I'll be home more - soon.

I would also like to thank Steve Gardiner for his help with the settlement map labels, and thanks also to Professor Fred Helleiner, with his enlightening and frightening red pen, for being my second reader. Many thanks to my adviser, Professor Susan Wurtele, for her interest, comments, and advice in the preparation of this thesis.

Finally, I would like to acknowledge the debt that is owed to the Emily Township assessors and officials who collected and preserved the census and assessment information.
